As part of our commitment to you we have established a community of practice in which we would like you to actively take part. Learning is about supporting one another, and through supporting peers and having an opportunity to engage with industry experts through guest presentations and real-world assessment briefs you will have the chance to take control of your learning whilst also being able to benefit from, as well as contribute to, the support that is offered. Information on the community of practice is available on Elite and is signposted through your module sites on Elite.

What software will I likely use at the University of Law?

At the University of Law we use a number of core learning technologies within our learning, teaching and assessment models. The following lists key systems with links to their required technologies:

Blackboard Learn Ultra

- https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support

Blackboard Collaborate Ultra

- https://help.blackboard.com/Collaborate/Ultra/Participant/Get_Started/Browser_Support

Respondus

- https://web.respondus.com/he/lockdownbrowser/resources/

Panopto

- https://support.panopto.com/s/article/Learn-About-Viewing-Requirements

ProctorU

- https://www.proctoru.com/proctoru-google-resouce-center

Can I use a Chromebook?

Currently, we do not recommend a Chromebook as these are not fully supported by all our Digital Assessment platforms.

Specialist software access and support

As specialist software and support is an integrated part of your learning we have put in place a series of digital guides to accompany your module learning (available as part of the introduction to the unit on Elite) as well as providing access to a specialist technician and academic staff (available both onsite and virtually through MS Teams) in order to help and support you during the programme. During the initial practical sessions for each module we will go through the necessary set-up and
