4b. Please comment on each of the following with examples:

- Whether the method and general standard of marking was credible, consistent, fair and robust;
- whether the marks awarded were reflective of the standards expected at that particular level and for all students;
- whether the marking criteria was presented clearly and appropriately differentiated across bands;
- whether the standard of work that you sampled was comparable across different locations (e.g., ULaw campuses and/or partnerships in the case of collaborative provision).

The marking is consistent, fair and robust. Marks awarded are reflective of the standards expected and marking criteria clearly presented. The method and general standard of marking is satisfactory and consistent across all different campuses.

I have been happy to approve the marking standard for all samples I have reviewed for all diets of assessment.
